

This is to certify that
Armour Risk Management Limited

20 Old Broad Street, London, EC2N 1DP

Has been assessed
by Alexandra Keratova for BSI Group
against the Cyber Essentials Scheme Test Specification

Level of certification: Cyber Essentials

Scope: Armour Risk Management Limited Perimeter Network

Certification date: March 13th, 2018

Recommended re-assessment date: **March 12th, 2019**

Certificate no.: 3319715815670451

This Certificate confirms that the organisation named was assessed against the Cyber Essentials Requirements dated June 2014, and at the time of testing, the organisation's ICT defences were assessed to meet the Requirements. Cyber Essentials Certification indicates that the organisation has implemented a sensible baseline of organisational cyber security only, and implies no guarantee of effective defence against commodity cyber attacks circumventing this baseline. Organisations are recommended to define and understand the risks to their organisation and take all appropriate action to mitigate or reduce any issues, which may require a greater degree of rigour or technical investment than is required for Cyber Essentials alone.
